To Whom it may Concern

Sahib Purbah was an exemplary employee and is an amazing person all around. During his time at Code For Kids he handled many tasks such as helping back-end development for the website and system, and handling the registration process for the students. He was a customer facing employee during the workshops and handled the customers, especially the ones who refused to sign photo releases incredibly courteously and professionally. His programming ability is very good, all the tasks he was given for the back-end of our system were completed on time and with good style.

In addition to his work with Code For Kids, Sahib also worked for me as the academics chair for Computing Orientation 2013, which I was the Orientation Chair. He dealt with the faculty and students very well and completed his tasks on schedule. The week ran perfectly in large part thanks to his effort.

Sahib would make a wonderful addition to any team.

Sincerely,

Lucas Marcelli
